
KESHAV KUMAR JHA

Software Engineer | AI-Native Developer Tools | Backend Systems | Python | TypeScript
Bengaluru, Karnataka, India | +91-9040713766 | keshavkjha1999@gmail.com | linkedin.com/in/ks48 | github.com/keshav-019

PROFILE

Software engineer with 3+ years of experience building backend systems, cloud-native applications, automation workflows, and AI-powered developer platforms. Strong across Python, TypeScript, Node.js, FastAPI, Spring Boot, Docker, databases, Playwright automation, and AI agent workflows.

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, Java, C++, SQL

Backend: FastAPI, Node.js, Express, Spring Boot, REST APIs, WebSockets, microservices, async programming

AI: LLM APIs, AI agents, RAG, tool calling, LangChain, Ollama, Hugging Face, prompt engineering

Cloud and DevOps: Docker, Kubernetes, AWS, Oracle Cloud Infrastructure, Linux, CI/CD, Playwright, GitHub Actions

Data: PostgreSQL, MySQL, Oracle SQL, MongoDB, Redis, FAISS, Chroma

Frontend and Desktop: React, Next.js, Angular, Electron, React Native, Expo

EXPERIENCE

Oracle Financial Services Software - Software Engineer Intern | Bengaluru, India | Jan 2026 - Jul 2026

- Contributed to Oracle Aconex document-management workflows across Angular, Spring Boot, Oracle SQL, and OCI-backed enterprise services.
- Built Playwright automation for document creation, metadata validation, hierarchy checks, uploads, and version-management regression coverage.
- Investigated production defects, improved release confidence, and collaborated through debugging sessions, code reviews, and design discussions.

Distrionix Pvt. Ltd. - Backend Developer and DevOps Engineer | Kolkata, India | Aug 2022 - Oct 2025

- Designed and maintained Node.js and Express REST APIs for employee management, payroll, inventory, procurement, and air-quality monitoring systems.
- Containerized services with Docker and deployed production applications across Linux servers with repeatable release workflows.
- Worked across PostgreSQL, MySQL, MongoDB, dashboard integrations, device workflows, logging, monitoring, and production issue resolution.

SELECTED PROJECTS

EchoMind | Python, FastAPI, Electron, TypeScript, LangGraph, SQLite, Playwright | [GitHub](#)

- Built a local-first desktop AI assistant with typed tool registry, approval policy engine, audit log, voice, OS/browser automation, semantic memory, routines, workflows, recovery mode, and Home Assistant integration.

CareerOS | Next.js, TypeScript, Firebase, Electron, React Native, Chrome Extension | [GitHub](#)

- Built a multi-surface career workspace with job pipeline, extension imports, Interview War Room, learning center, analytics, calendar, resume studio, LaTeX compiler, and local coding judge.

StackCendra | Next.js, TypeScript, Tauri/Rust, Go, Python, PostgreSQL, OpenTelemetry | [GitHub](#)

- Planned and prototyped an AI-native engineering workspace for evidence-backed project discovery, configuration drift, controlled deployments, incident intelligence, and production-to-local reproduction.

The REST Project | Next.js, Electron, TypeScript, Firebase, SQL Databases, SSH, Docker | [GitHub](#)

- Built a Postman-inspired developer platform for REST/GraphQL requests, collections, environments, database explorer/SQL execution, SSH sessions, teams, local terminal access, and desktop/web workflows.

EDUCATION

National Institute of Technology, Durgapur | M.Tech in Artificial Intelligence and Data Science | CGPA: 8.05 | Aug 2024 - May 2026

University of Engineering and Management, Kolkata | B.Tech in Computer Science and Engineering | CGPA: 8.6 | Sep 2018 - Jun 2022
